### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art does not disclose, teach or suggest a fuel cell system which controls flooding using a controller that provides both an additional amount of a first reactant and an additional amount of second reactant to displace flooding from both the anode and the cathode sides of the fuel cell. Meltser et al. discloses humidity in the fuel cell, but not flooding control and not specifically using two reactants. Mizuno also does not teach the use of two reactants directed at the anode and cathode to control/displace flooding of the cell.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. Alexandra Elve whose telephone number is 571-272-1173. The examiner can normally be reached on 7:30-4:00 Monday to Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jonathan Johnson can be reached on 571-272-1177. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
